

Snowdrop Anemone

Anemone sylvestris

Plant Height: 12 inches

Flower Height: 24 inches

Spread: 12 inches

Sunlight: ●

Hardiness Zone: 3a

Other Names: Windflower

Ornamental Features

Snowdrop Anemone has masses of beautiful white daisy flowers with yellow eyes at the ends of the stems from mid spring to early summer, which are most effective when planted in groupings. Its deeply cut ferny leaves remain forest green in color throughout the season.

Landscape Attributes

Snowdrop Anemone is a dense herbaceous perennial with a more or less rounded form. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should be cut back in late fall in preparation for winter. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats.

Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spreading
- Self-Seeding

Snowdrop Anemone is recommended for the following landscape applications;

- Mass Planting
- General Garden Use
- Groundcover
- Naturalizing And Woodland Gardens

Planting & Growing

Snowdrop Anemone will grow to be about 12 inches tall at maturity extending to 24 inches tall with the flowers, with a spread of 12 inches. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 10 years. As an herbaceous perennial, this plant will usually die back to the crown each winter, and will regrow from the base each spring. Be careful not to disturb the crown in late winter when it may not be readily seen!

This plant should be grown in a location with partial shade or which is shaded from the hot afternoon sun. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This species is not originally from North America. It can be propagated by division.

Sizes Available:

4.5" CONT \$7.99 / #1 CONT \$19.99
